The restriction set forth in paper #11 has been withdrawn.

The Final Rejection box checked on PTO-326 of paper #13 was inadvertent, thus the rejection set forth in paper #13 is hereby withdrawn.

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.

1. Claims 1 - 32 are rejected under 35 U.S.C. 103(a) as being unpatentable over Kassugai.

The method claimed would have been the obvious methods of producing the device of Kassugai.

The materials and insert employed would have been an obvious matter of engineering design choice in the above set forth device, motivated by the intended use.

2. The references to Kojima, et. al., Heaume, Hirakawa, Linden, et. al., Irish, et. al., Ramiouille, Cerbelle, et. al., Richter, et. al., Freeman, Stiles, Tipton, and Cox have been cited to further show related structure.
